

CONFIRMED COVID-19 POLICIES & PROCEDURES

In the event of a suspected or confirmed case of COVID-19 at OLC, the following policy and procedures will occur:

1. If a member of OLC or someone in their immediate household has tested positive or been exposed to someone who has tested positive for the COVID-19 virus, the member should not be coming to the club. The member should notify the General Manager immediately. The GM will ask for a list of areas and individuals that the member may have been in close contact with during the two days prior to the onset of symptoms. This would include employees, members and guests. The GM will then determine which individuals to contact based on the level of risk as outlined in the CDC guidelines.
2. When communicating with “close contact” individuals, the GM will be mindful of privacy and confidentiality laws. The members name will not be communicated.
3. Those individuals who came in “close contact” should practice self-monitoring for 14 days from the date of last contact. Contact a medical provider if health changes.
4. OLC will continue to properly clean all high traffic areas of the clubhouse throughout the hours of operation.
5. The GM will communicate to all employees and members if there is potential exposure to the club.
6. Members should follow CDC guidelines before returning to the club.
